

WELCOME TO YOUR SCIENCE BINDER

Hi, my name is _____, and I am your science binder for the 2015-2016 school year at BFCCPS. It is nice to meet you! We are going to have a lot of fun this year and, I promise to be there for you through the thick and thin of science class.

You can rely upon me to help you with your quizzes, projects, and exams. I will even promise to support you through your science fair project this year! I know, I **am** just that great!

However, in order for me to support you, there are a few things that you **MUST** promise to do for me in return.

As the caretaker of this science binder I promise to follow these important guidelines:

a.) Take you home on a regular basis. I know that you get lonely in the cubby with the other binders. It's not easy being green.

b.) Show you that I care by taking care of your basic needs: make sure that you are clean and organized. This includes that you have the following sections in good working order:

- *Weekly Overviews (Weeklies)
- *Notes and Handouts
- *Quizzes
- *Science Fair

c.) Show you respect by keeping you in one piece. If I need a fidget gadget, I will see Ms. H.!

d.) I will keep this page as the first page in my binder and place it in a protector sheet.

e.) Ms. H. is known to have spontaneous binder checks. I will be ready at all times by keeping you organized! I promise to make you look your best at all times. No one likes to look unkempt! Geesh!

Your grateful binder caretaker,
